

Moda Health Reimbursement Policy Update Bulletin: March 2023

New		
Policy Title & #	Texas Effective Date	Policy Summary
“Preventive Medicine & Problem-Oriented E/M Visits, Same Day,” RPM078	05/01/2023	<ul style="list-style-type: none"> When a preventive medicine visit and a problem-oriented Evaluation and Management (E/M) visit are reported on the same day for the same patient by the same provider, the reimbursement for the problem-oriented visit will be reduced by 50%. The fee reduction on the problem-oriented visit is due to the shared resources of the overlapping services (e.g., practice expense - costs associated with maintaining a practice) already being considered in the reimbursement of the preventive service.

All other policies reviewed and updated this month did not contain policy changes. They will contain changes in dates for review & approval. They may also have included formatting updates, clarification of unchanged existing policy, and/or additional supporting reference documentation.
